Project Description

Where are our photos and videos? You can help us find out! Embassy Kuwait is seeking an intern to plan and implement an organization and tagging scheme for our image and video archive using Flickr. Help improve the accessibility of our content by creating meaningful titles and descriptions. You will 1) organize our content that is already in Flickr, 2) search for images & video on our social media platforms not yet archived and add to Flickr, 3) curate appropriate licensed content by searching commercial databases of images, videos, infographics, and sound for use in our social media. We will provide database access. If there is time, you may 4) help us solicit videos from Kuwaiti university students in the USA.
